

Ecofin U.S. Renewables Infrastructure Trust plc (RNEW)

As of 30 September 2023

Investment objective

The Company's investment objective is to provide Shareholders with an attractive level of current distributions by investing in a diversified portfolio of mixed renewable energy and sustainable infrastructure assets predominantly located in the United States with prospects for modest capital appreciation over the long term.

- **Sustainable dividend yield:** targeting 3.5¢ dividend in FY2023
- **Fully invested portfolio:** Diversified portfolio of U.S. renewable energy assets with an attractive long-term income stream
- **Stable income:** Portfolio generating 100% contracted revenues which together offer geographical diversification and opportunity for both capital growth and inflation protection
- **U.S. renewables market with promising growth outlook:**
 - \$360 billion growth opportunity projected over next decade for renewable energy to decarbonize the power sector
 - Strong support from current administration to achieve its 2035 carbon-free U.S. power goal

As of 30 September 2023

Geographically diversified portfolio of attractive assets*

Portfolio of renewable assets with contracted revenues from investment-grade counterparties; weighted average of PPAs approximately 15 years

As of 30 September 2023. *Current portfolio includes both funded and committed investments. **Note: investment allocation based on GAV is 25%. **The numbers and value of these deals may fluctuate. The target returns and dividends set out above are targets only and are not profit forecasts. There can be no assurance that these targets can or will be met and they should not be seen as an indication of the Company's expected or actual results or returns. The Company's ability to distribute dividends will be determined by the existence of sufficient distributable reserves, legislative requirements and available cash reserves. Accordingly investors should not place any reliance on these targets in deciding whether to invest in Shares or assume that the Company will make any distributions at all.**

About Ecofin

Ecofin is a sustainable investment firm dedicated to uniting ecology and finance. Our mission is to generate strong risk-adjusted returns while optimizing investors’ impact on society. We are socially-minded, ESG-attentive investors, harnessing years of expertise investing in sustainable infrastructure, energy transition, clean water & environment and social impact. Our strategies are accessible through a variety of investment solutions and seek to achieve positive impacts that align with UN Sustainable Development Goals by addressing pressing global issues surrounding climate action, clean energy, water, education, healthcare and sustainable communities. Ecofin Investments, LLC is the parent of registered investment advisers Ecofin Advisors, LLC and Ecofin Advisors Limited (collectively "Ecofin").

This strategy seeks to achieve positive impacts that align with the following UN Sustainable Development Goals

Why U.S. renewable energy?

Long term fixed-price revenue contracts	Second largest global power market²	Low penetration relative to other developed markets
--	---	--

Investment in renewable energy generation is expected to account for more than 67% of U.S. power capital expenditures over the next decade – representing a potential \$360 billion growth opportunity for renewable energy to further decarbonize the power sector

- Strong support from current administration to achieve its 2035 carbon-free U.S. power goal
- Dramatic cost reductions have transformed renewable energy into an economically compelling source of power

² Second largest based on capacity and generation.
